

Goodbye Tonight

Lostprophets

Tonight, I felt stonger, Inside of your ways,
It takes alot to get home, But its ok when the light is always
on
I just want you to understand, there's no need to keep waiting.
Another day in another hand, it could be so different.
A Letter to me, your wasting time,
You know you could be, Yea you could shine
But Tonight you'll get it right,
You will make a difference...

Tonight, Tonight, Tonight,
I Feel stronger,
Goodbye, Goodbye, Goodbye,
If i could see through, even so far away
Its all you need too, make it through another day.

Surprise, Scream your heart out,
In time, you will have doubt.
Today it all seems too stong
If only you tried you would move on

I just want you to understand, there's no need to keep waiting.
Another day in another hand, it could be so different.
A Letter to me, your wasting time,
You know you could be, Yea you could shine
But Tonight you'll get it right,
You will make a difference...

Tonight, Tonight, Tonight,
I Feel stronger,
Goodbye, Goodbye, Goodbye,
If i could see through, even so far away
Its all you need too, make it through another day.

Tonight, Tonight, Tonight,
I Feel stronger,
Goodbye, Goodbye, Goodbye,
If i could see through, even so far away
Its all you need too, make it through another day...
