

# Heaven for the Weather, Hell for the Company

Lostprophets

I haven't lost the way I feel  
Didn't look away this time  
The blood that's filling up these veins  
Doesn't half as feel like mine

The shadows never seemed to comfort me (I don't want to feel th  
is way)  
How many little lies will make us say (I don't want to feel thi  
s way)

Hide the truth from my eyes  
I will never know, I will never know...  
And tear the sun from my sky  
Cause I will never know, I will never know...

I didn't want to cross the line  
I didn't want this on my mind  
But through all the things I've said  
I'm still a part of this machine

The shadows never seemed to comfort me (I don't want to feel th  
is way)  
How many little lies will make us say (I don't want to feel thi  
s way)

Hide the truth from my eyes  
I will never know, I will never know...  
And tear the sun from my sky  
Cause I will never know, I will never know...

Hide the truth from my eyes  
I will never know, I will never know...  
And tear the sun from my sky...  
Cause I will never know, I will never ever ever ever know...

Nide the truth from my eyes...  
Ooh, Ohh  
I will never never know  
I will never never know  
I will never... know...  
I will never... never... know...
