Make a Move

Lostprophets

So are we lost or do we know Which direction we should go? Sit around and wait for someone To take our hands and lead the way

'Cause every day we're getting older And every day we all get colder We're sick of waiting for our answers

Wake up, wake up, wake up Yeah, I'm so tired of waiting, waiting for us to Wake up, wake up, wake up Yeah, I'm so sick of waiting for us to make a move

Are we meant to take the pain? Should we sit around and wait? Are we being saved or was that another lie You made to make us hate?

'Cause every day we're getting older And every day we all get colder We're sick of waiting for our answers

Wake up, wake up, wake up Yeah, I'm so tired of waiting, waiting for us to Wake up, wake up, wake up Yeah, I'm so sick of waiting for us to make a move

Wake up, wake up, wake up And we will never lose Wake up, wake up, wake up It's time to make a move

Wake up, wake up, wake up And we will never lose Wake up, wake up, wake up It's time to make a move

It's not enough to let it run Just wait until it's over

We're sick of waiting for our answers

Wake up, wake up, wake up Yeah, I'm so tired of waiting, waiting for us to Wake up, wake up, wake up Yeah, I'm so sick of waiting for us to make a move

Wake up, wake up, wake up And we will never lose Wake up, wake up, wake up It's time to make a move

Wake up, wake up, wake up And we will never lose Wake up, wake up, wake up Tišteno z pisnicky-akordy.cz
