

Solemn, I can't fucking take it
Its face, grabs me like no other

I'm helpless, I'm frozen
Stuck in this hell I call home
Serenity can't be found
Its void, it can't be reached

Feeling helpless
My mental state is fucked
Caused by my own flesh and blood
Flesh and blood

Wounded by violence
Wounded by violence
Blinded by compassion

A life no longer worth thinking about
A life engulfed by doubt
Engulfed by doubt

Solemn, I can't fucking take it
Its face, grabs me like no other

I'm helpless, I'm frozen
Stuck in this hell I call my home
Serenity can't be found
Its void, it can't be reached

Feeling helpless
My mental state is fucked
Caused by my own flesh and blood

This feeling that's eternal
Causes me to sink lower and lower
