

Yuck

Lotus Eater

Rage is something I can't hide
When it hits it fuels me with spite
A feeling not wanted at all
Takes control, where do I go?

Help me
Like a bullet to my brain
So much pain
It cuts deep like a knife
Wounds stay open for all to see

Yuck the world, fuck this place, yuck it
Yuck the world, fuck this place, yuck it
Yuck the world, fuck this place, yuck it
Yuck the world, fuck this place, yuck it

Yuck the world, fuck this place, yuck it
Yuck the world, fuck this place, yuck it
Yuck the world, fuck this place, yuck it
Yuck the world, fuck this place, yuck it

Rage is something I can't hide
When it hits it fuels me with spite
A feeling not wanted at all
Takes control, where do I go now?
