

# Faith in Your Heartbeat

Lou Barlow

Find me a place  
Rules can be broken  
Way out into the open

California  
Buried me  
Have faith in your heartbeat

Where are we now?  
Far from the ruins  
Fingered it out  
Know what we're doing

But could I be?  
Would I be?  
All you could wish for  
All that could keep you away

And if you would leave how will I live?  
No reason to care  
You're Drifting and falling apart now  
Drifting and falling in place

Have faith in your heartbeat  
And if you would leave how will I live?  
No  
Drifting and falling in place
