

Yawning Blue Messiah

Lou Barlow

Hey to the blue messiah
Thought of you once again
Too bad we're only human
Too bad we can't be friends

I miss you brother but I hate your guts
Whatever inside you made me regret what was
I know the world's on fire I know this is the end
It burns between my fingers

Refuse the medicine
I miss you brother but I hate your guts
Whatever inside you
That made me regret what was
Made me regret what was
I let your words infect me
I let the clock unwind

There'll be no time for healing
I'm doubting all that's mind
This is a child's behavior
We're feeling nothing new
I didn't need a savior
What did I ask of you?

I miss you brother but I hate your guts
Whatever inside you that made me regret what was
Made me regret what was
I miss you brother but I hate your guts
Whatever inside you that made me regret what was
