

Watch Your Heart After Dark

Lou Christie

(spoken) : Don't, don't
After dawn, don't stir up someone's emotions
It starts off innocently with you
But we could end up baby blue
(spoken) : Don't kiss anyone
But me, are you strong enough when you're lonely
Not to run into a stranger's arms?
You belong to me

It's so easy to get caught in a trap
& the taste of runnin' wild you can't match up
Our love you would destroy
& the will to live the heart of this boy

Watch your heart after dark (watch your heart after dark)
Watch your heart after dark (watch your heart after dark)
Watch your heart after dark

You, you after dark, how I love your Siamese lies
At night you come alive
(spoken) : Though you hold back
When you kiss, is that the way you get your kiss?
& this feeling is tearin' me apart
I get alone from my heart

It's so easy to reach out
The power of change, you don't know what it's all about
I won't share you, I won't crawl
I want all your love or nothing at all

(repeat & fade) :
Watch your heart after dark (watch your heart after dark)
