## **Day One**

## Lou Gramm

Hang on alone without you, hang on enough to do what must be do ne

One bridge to cross and one to burn

I'll tell you I won't hide and I won't run, this is Day One I hear the drums on the battlefield, calling up my courage and my pride

I can't explain the way I feel, but my heart of heart won't be denied

Even in the darkest hours, I know my time will come, this is Da v One

You don't know about me, I'll give you a look inside my heart Don't walk away without me, because you know I've loved you fro m the start

Even in the darkest hours, I know our time will come, this is D ay One

I had to watch from the shadows, while the light of your star filled the sky

It's what I live for, it's what I fight for
Girl, I loved you so, from Day One
