

Early Morning Love

Lou Rawls

Early morning love, round about the time the sun comes
up

Early morning love, the kind of love you just can't get
enough of..

As I slowly roll over, I feel your body next to mine
And As I look out the window, I see the sun start to
climb

Early morning love, it lasts until the break of dawn
yea

Early morning love, before you know it the whole darn
day is gone

As we get lost in our world of total exstacy,
It's like nothing compares, except you, you and me
Early mornin love, when lifes between day and night,
Early mornin love, what a way to start the day off
right

I feel your heart beat full of passion and desire
You know I feel it deep too, its like mixing fire with
fire

Early mornin love, around about the time the sun comes
up

Early morning love, the kind of love ya just can't get
enough

I'm talkin bout early morning love, talkin bout early
morning love

Around about the time the sun comes up

Early morning love

What a way to start the day off right,

Early, early mornin love will make it alright

What a way to start the day!

Early mornin love will take you all thru the day yea

Fire with fire

Full of passion and desire

Before you know the whole darn day is gone

Early mornin love will make it go on

Early mornin love, yea

what a way to start the day off right

Early mornin love

I'm talkin bout early mornin love

Well well well well early mornin early mornin love

Early early mornin love, early morning love yea
