Vanishing Act

It must be nice to disappear To have a vanishing act To always be looking forward And never looking back

How nice it is to disappear Float into a mist With a young lady on your arm Looking for a kiss

It might be nice to disappear To have a vanishing act To always be looking forward Never look over your back

It must be nice to disappear Float into a mist With a young lady on your arm Looking for a kiss

It must be nice to disappear To have a vanishing act To always be moving forward And never looking back

How nice it is to disappear Float into a mist With a young lady on your arm Looking for a kiss

Looking for a kiss Float into a mist
