

Magic Day

Lou Rhodes

Something so simple
But I didn't know how
Could you shine more brightly
Than you shine right now

I knew we'd be here
Some magic day
If I waited long enough
You'd come my way

On our different sides
Of this planet of ours
Living parallel lives
Written in the stars

I knew we'd be here
Some magic day
If I waited long enough
You'd come my way

I knew we'd be here
Some magic day
If I waited long enough
You'd come my way

Yeah I knew we'd be here
Some magic day
If I waited long enough
You'd come my way
