

When We Go Home

Louane

I wanted to dream in color all my life
I painted it every day, just never felt right
Something in me wanted to change and I saw it differently
No need to chase because it's right in front of me

When we go home
We just know
We'll be who we are
Do what we want to
The beat of our hearts
When we go home

Just like a book you read a million times
A song that you never heard but you know every line
A top of a cliff, dangerous view, but you're not afraid to fall
A missing puzzle pieces, you thought you had them all

When we go home (we go, we go, yeah)
We just know (we go, we go, yeah)
We'll be who we are
Do what we want to
The beat of our hearts
When we go home

No way, no way, no way
We keep our dreams in the shadow
No way, oh yeah, oh yeah
We're coming home
No way, no way, no way
We keep our dreams in the shadow
No way, oh yeah, oh yeah
We're coming home

When we go home (we go, we go, yeah)
We just know (we go, we go, yeah)
We'll be who we are
Do what we want to
The beat of our hearts
When we go home

When we go home
We go home
We go home
We go home
