

Amnesia

Loud Luxury

I'm blurry eyed but don't think I'm feeling it
No sleep tonight I'm under flashing lights
I'm blinded by the smoke that I'm breathing in
I'm hypnotized maybe I'm not alright

But I'm not here to wish that I was sober
Think I found a way to leave my world outside
Feels so good to lose all of my focus, my focus

I just want to shut my eyes
Feel easier amnesia for one night
Looking for my peace of mind
Feel easier amnesia for one night

I just want to shut my eyes
Feel easier amnesia for one night
Looking for my peace of mind
Feels easier amnesia for one night

Feels easier with amnesia
For one night
Looking for my one night

I'm in and out of internal paradise
My happy place to go where I don't feel alone
I've taken something to make me feel alive
Now I can't describe why everything's so real

But I'm not here to wish that I was sober
Think I found a way to leave my world outside
Feels so good to lose all of my focus, my focus

I just want to shut my eyes
Feel easier amnesia for one night
Looking for my peace of mind
Feels easier amnesia for one night

I just want to shut my eyes
Feel easier amnesia for one night
Looking for my peace of mind
Feel easier amnesia for one night

Feels easier with amnesia
For one night

Feels easier with amnesia
For one night

I just want to shut my eyes
Feel easier amnesia for one night
Looking for my peace of mind
Feel easier amnesia for one night
