

# Safe With Me

Loud Luxury

Whisper our way through the darkness and no one needs to know  
As long as we both keep it on us and we won't break the code

Me and you  
We've got so much to lose  
We've broken all the rules  
Let's not let it break us too, ooh

Just keep it safe with me  
Anything you say will always stay with me  
No matter what it is, it wouldn't make me leave  
Make me leave, oh no  
Oh no

Just keep it safe with me  
Anything you say will always stay with me  
Wouldn't have to worry 'cause we're in way too deep  
Just keep it safe with me, oh no  
Oh no

Don't hold your breath when you're talking, I swear I'll do the same  
And when the devil comes knocking, we will never break

Me and you  
We've got so much to lose  
We've broken all the rules  
Let's not let it break us too, ooh

Just keep it safe with me  
Anything you say will always stay with me  
No matter what it is, it wouldn't make me leave  
Make me leave, oh no  
Oh no

Just keep it safe with me  
Anything you say will always stay with me  
Wouldn't have to worry 'cause we're in way too deep  
Just keep it safe with me, oh no  
Oh no

(Anything you say will, anything you say)  
Oh no  
(Anything you say will, anything you say)  
Just keep it safe with me  
(Anything you say will, anything you say)  
Oh no  
(Anything you say will, anything you say)  
Just keep it safe with me
