

Black and White

Loudness

All your life full of misery
All your life full of agony
Sick and tired of all your complaints

Miserable situation
Letting out your frustration
Won't you stop whining in vain

Every life has its ups and downs
Every story has two faces
Can't you have the courage to live another day
Life comes full circle when you've tastes all the pain

Bullshit! Bullshit!
Fuck yeah!
No pain, no gain

Black and white, your life dark and light
Yin and yang - cycles in time
Cosmic laws of the universe
The wheel keeps on rolling
It never stops

Never know what's going to change your life
If you are going to win or lose
Facing the pains will make you stronger
Joy will come around

Don't be scared to lose it all
Through the storm stand tall
Troubles seem so small, yeah

Life is so short and your days go so fast
Never know what's around the corner
Where are you going to go?

Bullshit! Bullshit!
Fuck yeah!
No pain, no gain

Black and white, your life dark and light
Yin and yang - cycles in time
Cosmic laws of the universe
The wheel keeps on rolling
It never stops

Keep your life moving
Yeah yeah
Keep your life in balance

Bullshit! Bullshit!
Fuck yeah!
No pain, no gain

Black and white, your life dark and light
Yin and yang - cycles in time
Cosmic laws of the universe

The wheel keeps on rolling
It never stops

Keep your life moving
Yeah yeah
Keep your life in balance

Keep your life moving
Yeah yeah
Even in crisis
