

# Change

## Loudness

Now is the time  
To hear the sound of freedom  
So many candles in the wind  
The wind of changes is blowing

It's better now than never  
It's been a long comin'  
So now a change has come  
You can't hide in the ashes

Feel the glory of change  
Make it last forever

It's time for change  
We turn out faces to the sky  
We've been waiting for the wind of change  
We are the change we seek

It's time to change  
We all must stand together  
We'll say the words and be free, Screaming out loud  
We are the change we seek

If you wanna see a change  
And stop the war on terror  
We gotta shout and pray  
So we can change the world

You better change your head  
You better free your mind  
So now a change has come  
See the light from the dust
