

# Everyone Lies

Loudness

A pack of lies  
A sack of jive  
To keep it all in line  
You know that everyone lies  
The flim and flam  
The skim and the scam  
They double speak  
Then take a leak in your eyes  
Dogs of deception  
Reality bends  
Stretching perception  
It never ends  
It never ends  
They went to bed  
She gave him head  
But every word he said  
It was just a big lie  
She said it's this  
He knows it's that  
Right then he smells a rat  
He knows that everyone lies  
Dogs of deception  
The worst of the breed  
Stretching perception  
Monstrous deeds  
Powered by greed  
Everyone lies  
Better get wise  
Everyone lies  
Who can I trust?  
Who can I trust??  
Who can I trust???  
Tell me baby  
Tell me now  
Who can I trust?  
Who can I trust??  
Who can I trust???  
Tell me baby  
Tell me now  
I can't take it anymore  
Everyone lies  
Better get wise  
Everyone lies  
Everyone lies  
So sick of bullshit  
Better get wise  
Everyone lies  
You got me crazy
