

## Gravity

## Loudness

A stock of bills piled up high  
Good or evil, dead or alive  
You've got to let it go  
You've got to let it go  
Juts like your life - it's up to you

Waves drawn by your mind  
Goals of your life, you will find  
You've got to let it go  
You've got to let it go  
It's up to you - you are what you wish

Came out of the blue  
There's not much you can do  
Oh oh oh oh gravity  
You get pulled away  
You get carried away  
Oh oh oh oh gravity

All that matters is how you feel  
Reliable compass in your heart  
There's no need to fear  
There's no need to fear  
Follow your bliss and you'll be fine

Your are a magnet - a gravity  
Everything you see - your ecstasy  
You're on a merry-go-round  
Merry-go-round and round  
Your life - full of blissful days

Came out of the blue  
There's not much you can do  
Oh oh oh oh gravity  
You get pulled away  
You get carried away  
Oh oh oh oh gravity
