

# High Flyer

Loudness

I'm so far out in space  
I am drifting everyday  
Gazing at the world outside

I'm a dynamite dreamer  
I'm a high flyer  
I'm reaching out to the sky...

I may be living in a state of fantasy  
A true believer of all the things I dream

No fear of danger  
I'm a magical machine...  
Traveling at the speed of light  
If ya don't know what I mean!

Flying on the wind - High flyer!  
I ain't afraid to die

Set my soul on fire  
Turn the wheels too late  
See the world  
As it comes back to me...

I'm a dynamite dreamer  
I'm a high flyer  
I'm reaching out to the sky...

I'm getting hot  
I'm ready to explode  
Slamming the pedal down  
And burning up the road

No time to waste  
I'm always on the run...  
Traveling at the speed of light  
And my journey's just begun...

Flying on the wind - High flyer!  
I'll never let it go

Flying on the wind - High flyer!  
I ain't afraid to die  
Flying on the wind - High flyer!  
I'll never let it go
