

I Wish

Loudness

Deep in the night,
you're calling me so late
My heart is beating like crazy
My tears fall from my eyes
I've been waiting on your
call all night long, my baby
I wish I could stand by you
right now
I wish you were mine, so sweet
little my girl
I wish I could be forever yours
faithfully, my girl
I wish you were really mine

Does he look like me? Does he
kiss you like me?
Don't waste your time on me
Your sweet voice
echoing in my mind
You've been starring
in my dreams
Please baby,
don't make me so weak
I wish I could stand by you
right now
I wish you were mine, so sweet

little my girl
I wish I could be forever yours
faithfully, my girl
I wish you were really mine
I cannot sleep,
I cannot dream tonight
So hard to live, So hard to go
on without you
I can not live without you

I wish I could stand by you
right now
I wish you were mine, so sweet
little my girl
I wish I could be forever yours
faithfully, my girl
I wish you were really mine
I wish I could stand by you
right now
I wish you were mine, so sweet
I wish I could be forever yours
faithfully, my girl
I wish you were really mine
