

Mirror Ball

Loudness

I am the spy of the night
I've been hell, been to heaven
Dressed like a movie star
I'm feelin' so stupid
But I'm actin' so stupid

In the speed of light
I've been trippin'
Trippin' to the moon light
Just take a look inside
I'm floatin' like a black leather balloon

Call me a freak
'Cuz I don't care no more
Wherever I roam
I will fade away
Fallin' apart
'Cuz I can't stand no more
This is the end
Ain't no beginning

She was a queen of the table
She was so queer
But nailed me so quickly
She was a motor lover
Primal mover
Grabbed my snake

Call me a freak
'Cuz I don't care no more
Wherever I roam
I will fade away
Fallin' apart
'Cuz I can't stand no more
This is the end
Ain't no beginning
