

Sleepless Nights

Loudness

I can feel the night is calling
Calling out to you
Tossing, turning, oh I'm learning
How to keep my mind off of you

Ooh, as the nights get longer
Time's standing still
It's the pain you're feeling deep inside
You need some love to pull you through
Pull you through the night now, baby

Can't take no more of these
Sleepless nights - driving me crazy
They've got me losing my mind
Sleepless nights - driving me crazy
They've got me losing my mind

All night the phone keeps ringing
I'm nowhere to be found
Your mind is racing and always chasing
You know I'm running around

Ooh, morning's getting closer and you wonder why
It's the pain you're feeling deep inside
You need someone to pull you through
Pull you through the night now, baby

Can't take no more of these
Sleepless nights - driving me crazy
They've got me losing my mind
Sleepless nights - driving me crazy
They've got me losing my mind

You have no clue to what I've been through
You tell me
I need to feel your love tonight, tonight
Give it to me right

I can feel the night is calling
Calling out to you
Tossing, turning, oh I'm learning
How to keep my mind off of you

Ooh, as the nights get longer
Time's standing still
It's the pain you're feeling deep inside
You need some love to pull you through
Pull you through the night now, baby

Can't take no more of these
Sleepless nights - driving me crazy
You've got me losing my mind
Sleepless nights - driving me crazy
You've got me losing my mind
Sleepless nights - driving me crazy
You've got me losing my mind
Sleepless nights - driving me crazy

You've got me losing my mind
