

## The Danger Zone

Loudness

Who will save our planet? Judgement time is here  
A new reality is calling all of us  
Save the planet, judgement day comes  
Our mother earth is crying out for love  
Hey!

Welcome to the danger zone  
We are in a mess, a danger zone  
Will time tell the truth?  
The answer is in our hands

Welcome to the danger zone  
We are in a mess, a danger zone  
We can change the world!  
The answer is in our hands

So many issues of life and death  
We've got a big mess in our world  
We never know what we should do  
And keep killing one another again  
And we know what's going on...

Welcome to the danger zone  
We are in a mess, a danger zone  
Will time tell the truth?  
The answer is in our hands

Welcome to the danger zone  
We are in a mess, a danger zone  
We can change the world!  
The answer is in our hands
