Whatsoever

Loudness

Oh, let me rock till the end of time
Wanna rock you babe till the end of time
Oh, let me sing till the end of time
Wanna sing to you till the end of time

All the things I'd like to tell the world
I will pursue whatever they say
If I ever fall in love with you
I will pursue until the end
Another day the sun will shine

Oh, let me swear to you till the end of time
Gonna hold you tight till the end of time

I'll always stand right by you
For whatever it takes, whatever it takes
I'm standing here waiting for you
No matter what, no matter when

Won't you keep in your mind
Every moment of your life it counts
Another day the sun will shine

All the things I'd like to tell the world
I will pursue whatever they say
If I ever fall in love with you
I will pursue until the end
I'll always stand right by you
For whatever it takes, whatever it takes
I'm standing here waiting for you
No matter what, no matter when

Oh baby, let me rock till the end of time
Wanna rock you babe till the end of time
Oh baby, let me sing till the end of time
Wanna sing to you till the end of time
Oh yeah…
