

# Falling

Louis The Child

There was flowers here before  
No lock on the door  
I gave up myself when you called me yours  
I was dripping in gold  
You watched me unfold  
Was it easy to tell  
That I fell for

You?  
I fell for you  
I fell for you  
I fell for you  
I fell for you  
I fell for you  
I fell for

Dancing in the palm of your hands  
Following the beat of your heart  
Losing my breath  
Right from the start  
You had me dancing in the palm of your hands  
Following the beat of your heart  
Losing my breath  
Falling apart

Falling for  
You  
I fell for you  
I fell for you  
I fell for you

Say you like to go with the flow  
I gave you a river  
But I didn't know that you couldn't swim  
Know you love to get high  
So I spread my wings out  
When it got too heavy, someone had to go down

Yeah, I took the fall for you  
I fell for you  
I fell for you  
I fell for you  
I fell for you, you, you  
I fell for you  
You

I fell for  
I fell for  
I fell for you  
I fell for you  
I fell for
