

tip toe

Louis The Child

Don't let me flash before your eyes
This love is lightning it won't strike twice
If the thrill is what you like
I'll be the storm worth chasing wide-eyed

Take me higher
Take me all in, like air in your lungs

My love, my love, my love was made for you
My love, my love, was custom-made for you
Don't you tip toe tip toe around it
Don't you tip toe tip toe

My love, my love, my love was made for you
My love, my love, was custom-made for you
Don't you tip toe tip toe around it
Don't you tip toe tip toe
Tip toe tip toe around it

Don't you tip toe tip toe
(Don't you) tip toe tip toe

So how much longer will you wait
I want you right here up close face to face
In the front seat of my brain
Don't let me be the one that got away

Take me higher
Take me all in, like air in your lungs

My love, my love, my love was made for you
My love, my love, was custom-made for you
Don't you tip toe tip toe around it
Don't you tip toe tip toe

My love, my love, my love was made for you
My love, my love, was custom-made for you
Don't you tip toe tip toe around it
Don't you tip toe tip toe
Tip toe tip toe around it

Don't you tip toe tip toe
(Don't you) Tip toe tip toe

Don't you tip toe tip toe
Don't you tip toe tip toe
(Tip toe tip toe around it)
