

# I Pray

Louise

I pray every night  
That you love will be there  
In the morning  
In the morning  
Waiting For Me

And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name

I close my eyes at night and dry my tears  
And then the only thing I love again  
Then I only wanna friend  
You, hold me so tenderly  
Show me the way  
The way to your heart

And I pray every night  
That you love will be there  
Yes I pray  
In the morning  
In the morning  
Waiting For Me

Yes I pray  
And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name

And I pray

Ooh-ooh, Yes I pray  
Ooh-ooh!

Whenever I need you you're always there  
It's the little things you do  
That let me trust in you  
And then I realise that I can't deny  
The love that we share  
Will Always be there!

And I pray every night  
Yeah, yeah  
That you love will be there  
Yes, I pray  
In the morning  
In the morning  
Waiting For Me

And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name

And I pray every night

That you love will be there  
In the morning  
In the morning  
Waiting For Me

And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name

I will surrender  
To the love that I need  
To the love that I need  
To the man I believe in  
To the way you make me feel  
To the way you make me feel

You are the one that has opened up my heart  
Opened up, opened up  
With the love and affection  
Yours Love takes me  
Higher, higher, higher, higher!

Pray!

Pray every night  
That you love will be there  
In the morning  
In the morning  
Waiting For Me

And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name

And I pray every night  
That you love will be there  
In the morning  
In the morning, morning!  
Waiting For Me

And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name

And I pray every night  
Oh year!  
That you love will be there  
Yes I pray  
In the morning  
I pray  
Waiting For Me  
Yes I pray!

And I pray every day  
That you heart will be there  
When I'm calling  
Calling you name  
Yes I pray!  
Oh pray!  
Ooh-ooh

Pray!
