

Just a Minute

Louise

Tryin' to find my way
Right now, I just see clouds
I know it's not a race
But time is tickin' down

For these tears to dry
I'll be alright, I'll survive
Get back my life
Almost there, almost ready

I just need a minute longer
You'll see me come back stronger, stronger
Know that I'll never forget you
Just give me a minute, give me a minute to say (Woah)

"Goodbye, good-goodbye
Goodbye, good-goodbye" (Woah)
"Goodbye, good-goodbye, goodbye"
I just need a minute to say

I take a second look back
Wonderin' what went wrong
There's no such thing as a wrong track
So here's one last song

'Cause these tears will dry
I'll be alright, I'll survive
Get back my life
Almost there, almost ready

I just need a minute longer

You'll see me come back stronger, stronger
Know that I'll never forget you
Just give me a minute, give me a minute to say (Woah)

"Goodbye, good-goodbye
Goodbye, good-goodbye" (Woah)
"Goodbye, good-goodbye, goodbye"
I just need a minute to say

Sometimes I'm scared of the darkness
Away from you, no harness
I don't know what's gonna happen, missin' in action, yeah
I get so used to my comfort zone
Holdin' you is all I know
I feel good when I'm fallin', it's only a moment left

I just need a minute longer
You'll see me come back stronger, stronger
Know that I'll never forget you
Just give me a minute, give me a minute to say (Woah)

"Goodbye, good-goodbye
Goodbye, good-goodbye" (Woah)
"Goodbye, good-goodbye, goodbye"
I just need a minute to say
