

# Pandora's Kiss

Louise

Sounds kinda freaky to me  
The way you said you never thought I'd get in the game  
'Til I saw you playin'/play it  
Bring out things in me  
Didn't look at how you got skills to see ?  
It's round the clock you got me feelin' light  
I'm on a mission all up in my head  
You keep me guessing, still sounding good to me  
A hottest work is something bout the chemistry  
Nothing wrong with that

I can't be that  
I won't hold back  
Can I say that?  
Wit' you I can't  
Whatcha do to me  
Got me free to be  
Be your everything  
'Cause you do those things for me  
Damn you're so fine  
Got to be mine  
Never knew it would be like this  
Yeah it's so real  
The way I feel  
Open up Pandora's kiss

Once you opened it up  
No way to stop it  
I'm just riding the ride  
I can't get off it  
Just like sugar to me  
My tooth is aching  
My heart is freaking  
Ah instead of this  
No all was in the kiss  
You started something  
When I see myself  
In your reflection  
I can play all the parts  
Want to show that

Be careful what you wish  
Think it through before  
Once you had a taste of that kiss  
All the people keep, keep on coming back  
Nobody said it's never felt like this  
Locked up in me  
You knew the way to set free  
You've found Pandora and you let her out  
Let her out, oh yeah  
Oh Pandora's so fine  
I like it loud!
