

## Small Talk

Louise

I know every  
Single detail  
I know your skin  
I know your skin

The way you mumble  
When you're sleeping  
And how we shared  
Everything

Same friends  
Same city  
Same ends  
Same party  
Same drinks  
Same bar  
But we've never felt so far apart

Same you  
Same me  
Exchange words  
No meaning  
Same hearts  
Changed feelings

We used to be in love  
We used to be inseparable  
Now it's a little awkward  
It's like we've never met before  
It's almost like we're strangers  
Remember when we had it all  
We used to dream big  
But now it's just small talk

It's just small talk  
It's just small talk

How you doing?  
It's good to see you  
Yeah, I'm good  
How you been?

Put our heads down  
And keep on walking  
Now we don't  
Mean a thing

Same friends  
Same city  
Same ends  
Same party  
Same drinks  
Same bar  
But we've never felt so far apart

Same you  
Same me

Exchange words  
No meaning  
Same hearts  
Changed feelings

We used to be in love  
We used to be inseparable  
Now it's a little awkward  
It's like we've never met before  
It's almost like we're strangers  
Remember when we had it all  
We used to dream big  
But now it's just small talk

It's just small talk  
It's just small talk  
It's just small talk

We used to be in love  
We used to be inseparable  
Now it's a little awkward  
It's like we've never met before  
It's almost like we're strangers  
Remember when we had it all  
We used to dream big  
But now it's just small talk
