

The Slightest Touch

Louise

The Slightest Touch
Louise

I thought I knew
How to handle my emotions
Till you lit the fuse that
Triggered the explosion
You turn me on with the
Power of electric love
Now I can't get enough
Turn the voltage up

The slightest touch and
I go crazy with desire
The slightest touch
Could bring me to my knees
Oh watcha watcha touch
'Cause I'm a real live wire
Your slightest touch is
Heavy on me

You turn me into
A raving maniac
Till loco locomotive
You keep me on
The right track
You got my senses turned
To your remote control
You put a spark in my soul
Now I'm too hot to hold

The slightest touch and
I go crazy with desire
The slightest touch
Could bring me to my knees
Oh watcha watcha touch
'Cause I'm a real live wire
Your slightest touch is
Heavy on me

Spoken:
There's one thing
That you should know
I'm about to lose
My self control
So come a little closer
No closer than that
Touch me that's
Where it's at

The slightest touch and
I go crazy with desire
The slightest touch could
Bring me to my knees
Oh watcha watcha touch
'Cause I'm a real live wire
Your slightest touch is

Heavy on me
