

# Wonder Woman

Louise

[Verse 1]

Reminiscing

Touching all the places that your lips were kissing  
From the bedroom to the hallway, in the kitchen  
Where our fantasies came true  
Well, it's been a minute  
I went in the studio when you were busy  
The tabs on my search bar were so explicit  
But I only wanna come for you

[Chorus]

Remember when  
You used to call me Wonder Woman?  
When I gave you good love  
I guess that's still true  
Because I wonder  
I wonder, I wonder, I do  
I catch myself thinking 'bout you  
And I wonder if you think about me too  
Because I wonder  
(I wonder, I wonder)

[Verse 2]

Was it magic?  
Was the energy between us always making static?  
And everytime I threw it back boy you'd be there to catch it  
Saying nothing else can beat this view  
Ooh, don't you miss the way it feels to lose yourself in me?  
Drowning in each other's oceans  
Nothing tastes as sweet, it's true  
I only wanna come for you

[Chorus]

Remember when  
You used to call me Wonder Woman?  
When I gave you good love  
I guess that's still true, you know that's still true  
Because I wonder  
I wonder, I wonder, I do  
I catch myself thinking 'bout you  
And I wonder if you think about me too  
Because I wonder  
(I wonder, I wonder)

[Bridge]

I don't wanna think about what you doing with the next chick (no, no)  
All I wanna think about is you staying as my (hey)  
Got me restless, hella hectic  
When I reminisce I'm still loving it  
It was like that chronic, bionic, just on some other shit  
You know I really miss your body  
And you know I really miss your body  
Ain't nobody got it like you got it  
You got it, you got it good, boy  
Drinks on me stop pulling me under  
Baby, do you think about me still? 'Cause I wonder

[Chorus]

Because I wonder  
I wonder, I wonder, I do  
I catch myself thinking 'bout you  
And I wonder if you think about me too (oh yeah, yeah)  
Because I wonder (ooh, ooh)

[Outro]

Oh yeah, yeah  
Ooh  
Ooh  
Do you feel, baby, what I do?
