

Wrong

Louise

You said you would try
If and when you don't know how
Always have my back
Never let me down
You were wrong
You were wrong

You said you would fight
With every breath you had
You would sooner die
Than be waving that white flag
You were wrong
You were wrong

But then there was that one night when you said

Don't let nobody treat you too good
You'll realise how bad, bad, bad I've been
Don't let nobody treat you too kind
'Cause you'll wanna say goodbye
Well I guess you were right
Right about something

I clipped my own wings
I fell back on Earth
You said I don't need them
You would lift me up
You were wrong
You were wrong

But then there was that one night when you said

Don't let nobody treat you too good
You'll realise how bad, bad, bad I've been
Don't let nobody treat you too kind
'Cause you'll wanna say goodbye
Well I guess you were right
Right about something

I'll be the first to admit it wasn't all your fault
I should have fixed it before it was unfixable
You said you couldn't see it coming
But you gave yourself away the night I heard you say

Don't let nobody treat you too good
You'll realise how bad, bad, bad I've been
Don't let nobody treat you too kind
'Cause you'll wanna say goodbye
I guess you were right

Thought I was dreaming
Dreams, they don't come true
Thought that I'd be nothing
Nothing without you
