```
Make you real and honest
Make it worth it all
Make the pain melt away
R:
Wait
Don't throw away another day
Take a new avenue
Wait
Look inside you will find
Wait
The way you lie
Tell me you lost it
Tell me you lost it
Whatever it takes you know I won't let it break you
Tell me you lost it
Tell me you lost it
Don't carry the weight
I wait
I wait for you
Always will, always do
I wait for you
Hurting, bleeding, dying, but
I wait for you
Always will, always do
I wait for you
Hurting, bleeding, dying, but
I wait
Make you feel so vibrant
Make you fall in love
Make you feel like brand new
R:
Tell me you lost it
Tell me you lost it
Whatever it takes you know I won't let it break you
Tell me you lost it
Tell me you lost it
Don't carry the weight
I wait
I wait for you
Always will, always do
I wait for you
Hurting, bleeding, dying, but
I wait for you
Always will, always do
I wait for you
Hurting, bleeding, dying, but
I wait
```

I'm fed up of missing you

I'm fed up of all your lies
I'm fed up of chasing you
I'm fed up of your disguise
I'm fed up of missing you
