

# Tell Me What It Feels Like

**Love and Theft**

You came in here tonight like you don't even know me  
There's somethin' in your blue eyes sayin' everything's fine  
I see the way you touch em and baby I can't breathe

Your smile's just a little too loud  
And I'm still trying to figure it out

Tell me what it feels like  
Being on the rebound  
You've already moved on  
And I don't even know how  
Are you really happy  
Tell me how you got there  
Is it really greener  
Actin' like you don't care

Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like

I came here to drink tonight and try to forget you  
Cuz all I do is think about you when I'm alone  
Pretending like I've moved on is just something I can't do

Your smile's just a little too loud  
And I'm still tryin' to figure it out

Tell me what it feels like  
Being on the rebound  
You've already moved on  
And I don't even know how  
Are you really happy  
Tell me how you got there  
Is it really greener  
Actin' like you don't care

Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like

To run so freely, be so happy on the other side  
And not even have to think about me when you close your eyes

Tell me what it feels like  
Tell me what it feels like

Tell me what it feels like  
Being on the rebound  
You've already moved on  
And I don't even know how  
Are you really happy  
Tell me how you got there  
Is it really greener  
Actin' like you don't care

Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like

Tell me what it feels like  
Being on the rebound  
You've already moved on  
And I don't even know how  
Are you really happy  
Tell me how you got there  
Is it really greener  
Actin' like you don't care

Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like  
Tell me what it feels like, what it feels like
