

# It Hurts To Know You're There

Love Is Noise

You took what I believe  
You stole my safest thoughts, another vacancy  
You cursed my self belief

I watched you crawl  
Inside my opened skull

It's in the way you talk to me  
It hurts to know you're there  
The way you said goodbye to me  
It hurts to know you're there

You took a part a me  
An ancient sacrifice  
To those above  
The gods inside your mind

You watched me fall  
Now look who has control

It's in the way you talk to me  
It hurts to know you're there  
The way you said goodbye to me  
It hurts to know you're there

Maybe someday  
Time will be your therapy  
If only you could see  
The present moment

Is the place that holds your inner peace  
Become aware, become alive  
Believe it's meant to be

It's in the way you talk to me  
The way you said goodbye to me  
It hurts to know you're there

It's in the way you talk to me  
It hurts to know you're there  
The way you said goodbye to me  
It hurts to know you're there
