

O

LOVE PSYCHEDELICO

We need a little patience I will feel at ease
If you shoot me down in front of my door
Or I may worry up and down and cut my throat
Oh, nobody could act like me
Put double "O" let me grow
Triple "O" let me go
20 minutes I walk around I always do
If I could mess around your brain's control
My proud sister "clever" love me! kiss me kiss me mama
Oh, nobody could feel like me
Give double "O" let me grow
Triple "O" let me go
Let it be, oh let it bleed
Before I die
By me, miss me, bye!

I love you all
So, give me a long
A long a long a long a long
Original love love
Slave me slay me in your natural sickness
If you could buy me in an electronic stores
Too much information today's another day
Oh, everybody's little tired to be bored
Bless double "O" let me grow
Triple "O" let me go
Let it be, oh let it bleed
Before I die
Bye me, miss me, bye!
I love you all
So, give me a long
A long a long a long a long
Original love love
