

All God's Children

Love Spit Love

All God's children come to harm
There's no good reason for alarm
Let them play

There's always blue skies follow rain
The sun will always shine again
So they say

I see little girls down below
Singing summer songs
There's a shadow where there was a sun
Now the summer's gone

The sky is raining at my back
And all my dreams got painted black
I want them back

I see little girls down below
Singing summer songs
There's a shadow where there was a sun
Now the summer's gone

I speak too much, yeah, yeah
I talk too much, yeah
I think too much, yeah, yeah
I talk too much, yeah

There's always blue skies follow rain
The sun will always shine again
So they say

I see little girls down below
Singing summer songs
There's a shadow where there was a sun
Now that summer's gone

I speak too much, yeah, yeah
I talk too much, yeah
I think too much, yeah, yeah
I talk too much, yeah

I speak too much
I talk too much
I think too much
I talk too much
