

If I Don't Have You

Love & The Outcome

How can I build Your kingdom if I'm building my own
How can You be my treasure if I'm digging for gold
How can You be my fire if my heart has grown cold
How can You be my future if I've made this my home
How can I
How can I

I don't want the world if I don't have You
I don't want it all if it means I lose You
I've tasted and I've seen enough
To know it's You I need
I don't want the world if I don't have You
If I don't have You

How can I say I need You and live on my own
How can I say I want You and never come close
How can I say I surrender and never let go
How can I say I love You to someone I don't know
How can I
How can I

I don't want the world if I don't have You
I don't want it all if it means I lose You
I've tasted and I've seen enough
To know it's You I need
I don't want the world if I don't have You

I give You every failure every dream
And every mountain-top
I give You everything I thought of me
And nail it to the cross
I leave behind me what is ashes
And what will be dust
All I am to You my God
For all else will be lost

I don't want the world if I don't have You
I don't want it all if it means I lose You
I've tasted and I've seen enough
To know it's You I need
I don't want the world if I don't have You

I don't want the world if I don't have You
I don't want it all if it means I lose You
I've tasted and I've seen enough
To know it's You I need
I don't want the world if I don't have You
If I don't have You
