

It's Still Christmas

Love & The Outcome

Star's up all the tinsel's on the tree
There's something still a little off
Or maybe it's just me
Everybody's smiling but I'm just kinda here
But I can't be the only one who feels a little off this year

Ooh...
When did Jingle Bells become such a sad song
It's such a sad song

It's still Christmas
The twinkle of a star
That finds you where you are
It's still Christmas
A little candlelight
When you sing inside at night
It's still Christmas
It's still Christmas

We've done all the things
That we're supposed to do
But nothing feels the way it used to
Jesus You came down to a stable on the ground
So maybe this is right where I can meet You

Ooh...
When did Jingle Bells become a sad song
It's such a sad song

It's still Christmas
The twinkle of a star
That finds you where you are
It's still Christmas
A little candlelight
When you sing inside at night
It's still Christmas
It's still Christmas

Ooh...
Even when you fall apart
Ooh...
Even with a broken heart

It's still Christmas
The twinkle of a star
That finds you where you are
It's still Christmas
A little candlelight
When you sing inside at night
It's still Christmas
It's still Christmas
It's still Christmas
Still Christmas
