

Look What God Has Done

Love & The Outcome

My life is evidence
Of all that God has done
I faced my darkest hour
I wasn't strong enough
But He is faithful
This is my testimony
It's one I couldn't write
If I had known the journey
I'd have given up the fight
But He is faithful (He is faithful)
He is faithful

And now I look more like faith and less like fear
Not living in the past now I'm right here
I'll never stop singing loud and clear
Look what God has done
Look what God has done

I've lived through many trials
I've never understood
But pain is never wasted
He works it all for good
Always faithful (faithful)
I have a joy that's deeper
I'm freer than before
Not saying it was easy
But now I know it more
That He is faithful (He is faithful)
Always faithful

And now I look more like faith and less like fear
Not living in the past now I'm right here
I'll never stop singing loud and clear
Look what God has done
Look what God has done
Look what God has done

Look what God has done (look what God has done)
It's my story now (and this is my song)
Look what God has done (look what God has done)
It's my story now and this is my song

And now I look more like faith and less like fear
Not living in the past now I'm right here
I'll never stop singing loud and clear
Look what God has done
Look what God has done
Look what God has done
Look what God has done
Look what God has done
