

Discharged

Love

Everything's grand, I just got out of the army today
I feel like I have just been born here all over today

I just killed all the enemies
So you can sleep tonight
Oh!

Everything's grand, I just got out of the army today
I feel like I could kill a thousand more people today

I just received the purple heart
And I know you're proud of that
Oh!

Everything's grand, I just got out of the army today

Our fighting men, our fighting men
Go from sea to shining sea
To kill our hopes of brotherhood
But they do it legally

Everything's grand I just got out of the army today...
