

Dream

Love

I just got up from a dream, I dreamed that I
I was running through the wind
But all the ti-me, for it was just a dream
You know what I mean, Yeah!
Don't you know you gotta go!
(Hey hey hey! - Woo! hey!)

I just stepped in from New York at 10 a m International Airport
And now I'm here with all my friends again
Wonder if there' a God...?

You just don't seem to understand it
But a man ain't supposed to cry
I don't want you to think I planned it

So I... make... up... a... reason... why... why you love
To the beat, to the beat 'til they step out-side'
Don't you think I ought to come on home!?

I just got up from a dream
