

Everything's Better With You

Loveable Rogues

You could be rich or poor,
From a council estate or walk on marble floors,
You could say anything, and I'd wait for you to finish always wanting
more.

Oh, you
Never have a shadow cause the sun shines behind you (you)
Never need to impress because I get everything that you do.

Oh everything's better with you,
Above all the clouds the sky is still blue
I look to the crowds and it's you that I choose
Everything, everything's better with you.

You could have any job,
Be the Queen of England, do a shift in a shop,
You could be lost somewhere,
And I promise to find you so just wait for me there.

Oh, you
Never have a shadow cause the sun shines behind you (you)
Never need to impress because I get everything that you do.

Oh everything's better with you,
Above all the clouds the sky is still blue
I look to the crowds and it's you that I choose
Everything, everything's better with you

Life's enjoyed with others,
And I'm lucky I can share with you (share with you),

Whenever you're in trouble baby,
There if surely something I can do,
I can do.

Oh everything's better with you,
I look to the crowds and it's you that I choose
Everything, everything's better with you.

Oh everything's better with you,
Above all the clouds the sky is still blue
I look to the crowds and it's you that I choose
Everything, everything's better with you.

Oh everything's better with you,
Above all the clouds the sky is still blue
I look to the crowds and it's you that I choose
Everything, everything's better with you.
