Notions

Lovedrug

I’ve got these spirits and they’re stacking up
Like a chord wrapped around my soul
I’m calling ghosts and they are lining up
Like an army about to take control
I see the mirror but there’s no one there
How did get so off track
I get these notions when I’m all alone
Now they’re crawling up the spine in my back

Sha-na-na-na...
Notions, I get notions [x2]

Don’t call me quitter cause I gave it up
I just need a little time on my own
My house is haunted like a holy cup
And I prefer to have my drinks alone
My smoking jacket is engulfed in flame
But I like the way it casts a light
I get these notions when I’m burning up
It’s not like everything will be alright

Sha-na-na-na...
Notions, I get notions [x2]

Hey, you in the mirror
I like your smile, I like your heart
Hey we're in the clear
We got no love, We've got no parts
Oh, little light, will you save me
Oh, little light will you save me

Sha-na-na-na...
Notions, I get notions [x4]
