

Ocean

Lovedrug

The future opened and let us in
Her waves are cold, our chances thin
A generation of gods and men
Have come and gone as we begin

I wanna be semi-gloss
Forever Yours, ever lost
I wanna be semi-gloss
Forever in your ocean

My haunted waters are hardly calm
The deadly wave will break at dawn
You carry mountains, you salt the sea
Your blind devotion is healing me

I feel it all semi-gloss
A funeral, send me off
I don't care what the cost
I'm your ocean

I wanna be semi-gloss
Forever yours, ever lost
I don't care what the cost
I will be your ocean
