

# One of the Family

Lovedrug

Wow, you seemed calm in your letter  
Sticky bound, black in a bottle and waves  
Crashing on shore like a managed  
Cold hand, warm heart

You said I ran off with the money  
Leaving you stranded, naked alone  
Now there's blood on the dance floor honey,  
No sir, no more

Hey officer, I'm clean  
No way, it wasn't me  
I got no motive here  
So help me so

There goes my honey girl  
Sweetly she'll burn the world  
Shrug shoulders, roll the eyes  
And let it go

Baby, don't you know that it's a saturday night  
So, let me drink your blood, like I'm one of the family  
Baby, don't you know that it's a scavenger night  
So, let me feel your gold like I'm one of the family

So I heard you say you want a code ring  
If you were a ride I'd put a dime in your heart  
You know we want the same things baby  
Gold friends that glow in the dark

I don't really care it's your money  
But then again I care for you honey  
I remember when we were winning, we're  
Bankrupt now and you won't stop celebrating

There's no reason to fear  
We're all lovers, sincere  
Licking ourselves in the briar  
That warm mouth prickly taste of the fire

Now everything's clear  
There's cold blood in the mirror  
If you reach down far enough you'll see  
The devil's inside all of us  
Not just me
