

## Washed Out

Lovedrug

Four decades old and my back is giving out  
They make a pill for depression  
Four decades old and I really wanna know  
What you thought of my confession

Am I washed up or just washed out  
Am I washed up or just washed out  
Am I happy? I have my doubts  
Am I washed up or just washed out

Am I just washed out  
Am I just washed out  
Am I just washed out  
Am I just washed out

Am I just washed out  
Am I just washed out  
Am I just washed out  
Am I just

I realize that my youth is a disguise  
Now I'm making deals with the crows  
I want my wings and I'm tired of singing  
About stupid shit that kids think they know

Am I washed up or just washed out  
Am I washed up or just washed out  
Am I happy? I have my doubts  
Am I washed up or just washed... out

Am I washed up or just washed out  
Am I washed up or just washed out  
Am I happy? I have my doubts  
Am I washed up or just washed... out

Am I just washed out

Am I just washed out
