Lovedrug

The radio's down and we're snowed in  
In New Orleans, yeah  
Just got promoted to cult leader  
In the morning, yeah  
I'll cut my wrists and drink my blood  
For a change, yeah  
I gotta find a way that's a better way  
Than a stake through the heart

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

The fire's gone out and a moon halo  
Is a friend, yeah  
I'm so drained but there's still  
More to amend, yeah  
You cut your wrists and the blood  
Turns black and I shake, oh yeah  
I gotta find a way that's a better way  
When you break through my heart

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

(You put a spell onto me)  
(Put a spell onto me)

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

You put a spell onto me  
Put a spell onto me

(Put a spell onto me)

(You put a spell onto me)

(You put a spell onto me)
